TC-26	Apply all filters together	Select all available filters	Correct combined results should appear	Correct combined results appeared	PASS
TC-27	Reset all filters	Select filters and click Reset Filters	All filters should reset to default	All filters are reset to default	PASS
TC-28	Close filter modal	Click close (X) button	Filter modal should close	Filter modal closed	PASS
TC-29	Check filter modal UI	Open filter modal	modal should be properly aligned	modal is properly aligned	PASS
TC-30	No jobs found scenario	Apply filters with no matching jobs	"No jobs found" message should display	"No jobs found" message IS displayed	PASS

Bug Report

A. Login / Signup

BUG ID: B-01

Bug Title: Email Verification Code field allows more than 6 characters

Environment:

- Website: Zobsai.com
- Browser: Chrome
- Device: Desktop

Steps to Reproduce:

1. Complete the signup process.
2. Navigate to the Email Verification page.
3. Enter more than 6 characters in the verification code field.

Expected Result:

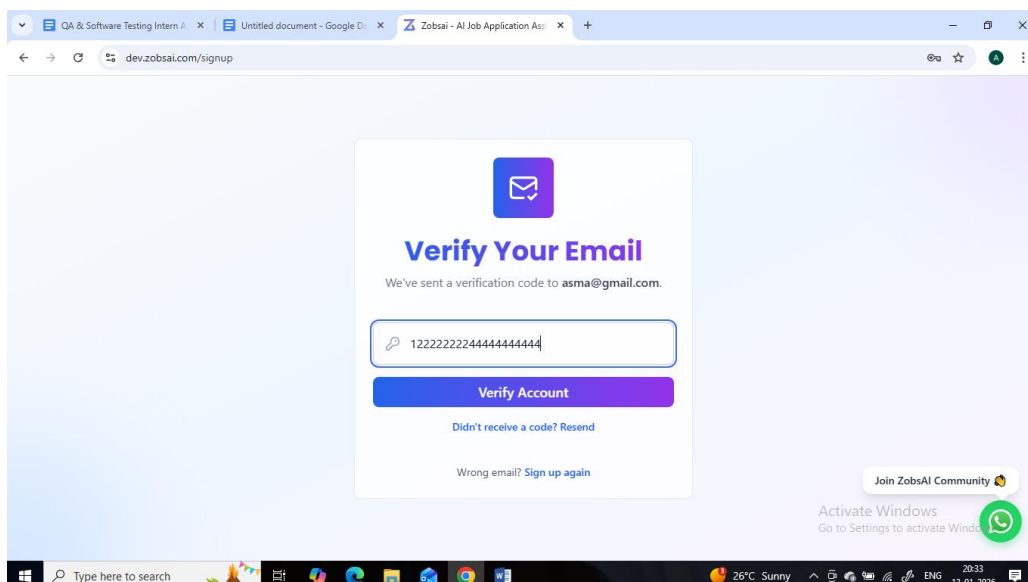

- The system should restrict input to only 6 characters.
- Extra characters should be blocked or an error message should be displayed.

Actual Result:

- The field allows entering more than 6 characters.

Severity: Medium

Priority: High

B. Forms / Field Validations

BUG ID: B-02

TC ID: TC-07

Bug Title:

Full Name field accepts numeric characters

Steps to Reproduce:

1. Open the Edit Profile form.
2. Click on the **Full Name** input field.
3. Enter a name containing numbers (e.g., Asma123).
4. Click on the **Save** button.

Expected Result:

- The Full Name field should not accept numeric characters.
- A validation message should appear.

Actual Result:

- The system accepts numbers in the Full Name field.
- A success message appears: *"Profile updated"*.

Severity Level:

Medium

BUG ID: B-03

TC ID: TC-08

Bug Title:

Full Name field accepts special characters

Steps to Reproduce:

1. Open the Edit Profile form.
2. Click on the **Full Name** input field.
3. Enter special characters (e.g., @\$%^).
4. Click on the **Save / Update / Submit** button.

Expected Result:

- The Full Name field should not accept special characters.
- A validation error message should be displayed (e.g., *"Special characters are not allowed"*).

Actual Result:

- The system accepts special characters in the Full Name field.
- A success message appears: *"Profile updated"*.

Severity Level:

Medium

Bug Title:

Profile is saved with invalid data

Steps to Reproduce:

1. Open the Edit Profile form.
2. Enter invalid data in one or more fields (e.g., invalid phone number, special characters in name, empty mandatory fields).
3. Click on the **Save Profile** button.

Expected Result:

- The system should validate all fields before saving.

- The profile should not be saved if invalid data is entered.
- An appropriate error message should be displayed.

Actual Result:

- The system allows saving the profile even when invalid data is entered.
- No validation error message is shown.

Severity Level:

Critical
